

Do it yourself

Do it yourself

Do it yourself

Advantages

- Polycarbonate is a crystal clear, high impact thermoplastic
- Temperature resistance from -40 to +115°C, temporarily up to 130°C
- Unchanged impact resistance within these temperatures
- good long term performance through UV protection
- 10 years warranty against yellowing - ageing - hail stone
- translucent with excellent thermal properties

Applications

- Facade cladding and glazing
- Winter gardens
- Conservatories
- Roofing constructions
- Pergolas
- Light-bands
- Canopies
- Interior applications
- Carports

Panels

Panels are connected via the tongue and groove joint to construct walls and roofs of varying sizes. With minimal alloy components the systems are both fast and easy to install, thus ideal for home DIY.

	Panel	Up-value W/m ² K**	Weight kg/m ²	Building width (mm)	Thickness (mm)
333	2333-16-4	approx. 2.1 W/m ² K	approx. 2.4	333 +/- 1%	16
	2333-20-4	approx. 2.0 W/m ² K	approx. 2.6	333 +/- 1%	20

PC 2333-16-4

Colours

Standard: crystal / opal

Color version: from 300 m²

PC 2333-20-4

Do it yourself

Panels

The Multicolor panel provides numerous opportunities for wall and facade designing. Polycarbonate tubes in varying shapes and various colours can be shifted into the panels middle chamber. This allows to create different patterns and colour accents. This makes individual design, even for small projects like partitions, affordable.

Multicolor

rectangular tubes
Item no.: 37r1011060

concave tubes
Item no.: 37k1011060

triangular tubes
Item no.: 37d1011060

40	Panel	Up-value W/m ² K**	Weight kg/m ²	Building width (mm)	Thickness (mm)
	2540-4MC	1.3-1.6 W/m ² K	approx. 4.0	500+/- 1%	40

Applications

- Facade claddings
- Interior applications
- Exhibition stand constructions
- Partitions
- Pergolas
- Light bands
